**CRITERION I – CURRICULAR ASPECTS**

**1.1 – Curriculum Planning and Implementation**

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The institution follows the curriculum framework of the NCTE and syllabus of

the choice based credit system as prescribed by the University for the two year B. Ed. program. A detailed and a week wise academic calendar is prepared in the beginning of the academic year which is shared on the Google Drive for all faculty members and the weekly time table is set accordingly. Both the Academic calendars and timetable along with the schedules of the programs conducted are documented and filed. The student attendance and participation in the various activities is also maintained and wherever possible photographs and video clippings of the same recorded. The curriculum is enhanced by adding Value Added Courses for the professional skills and for updating knowledge and understanding of the innovations and additions in the field, to improve the employability skills of the learners. Expert resource persons from different fields are tapped for the same. The Value Added courses are well integrated into the entire B.Ed. program. For the personality development of student teachers short term courses are designed. This makes them better equipped for professional and personal life. The institution networks with various organisations and NGOs to help transact the curriculum effectively and to meet the college mission of developing positive attitude and values in our students. Field trips and Visits are also planned to give direct experiences to students. The faculty enjoys complete academic freedom while they plan and use various strategies and activities for curriculum transaction and support is provided by the institution in the form of time, space and finances as and when necessary. The students are also encouraged to enrol for identified and suitable SWAYAM courses for enhanced understanding of the different courses in the curriculum and to enhance the subject knowledge so as to improve their efficiency in the subjects they will teach in the schools.

### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The mentoring system at KKCE is organised with the aim to foster all round development of student teachers by developing a strong partnership between mentor and mentee. The broad objectives of mentoring are to:

- Monitor students' progress in terms of academic performance and in extracurricular activities, attendance and punctuality.
- Develop sense of accountability in students.
- To discover potential of the mentees and encourage its development.
- To help mentees cope with the challenges of B. Ed course
- To help the mentee believe in his/ her potential and boost the confidence level.

In the academic year 2018- 19, mentoring was carried out efficiently for both the batches i.e. F. Y. B. Ed and S. Y. B. Ed, with the assistance and mutual support of the teachers. Presence of both the batches facilitated communication, sharing of experiences, problems and finding solutions to the problems with a mixed group of students. Issues and predicaments faced were also scrutinized closely by the mentors and mentees. The second year batch truly supported and got attuned with the first year batch and made them feel comfortable. This fostered friendly relation between students and staff as well as among students. During Parents Teachers Meet, parents were requested to meet the mentor teacher of their ward. This opportunity enabled better communication between parents and mentor teacher, it also opened up channels of future communication and enhanced the comfort level between the parents and the mentor teacher. The mentoring system works towards enriching interaction, creating healthy environment for teaching learning and helping students achieve their best.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The college designed a reflective journal based on the idea of 'Ipsative Assessment' that compares performance of the assessee against his/her previous performance. The Journal attempted at capturing student reflections in 5 significant areas of teaching competence. A conceptual reflection framework was designed with students understanding their teaching-learning experiences on the given parameters: Knowing the learner, Assessment and evaluation, Resource management and Lesson planning. The unique idea was a self-assessment section that required student-teachers to rate their efficacy in the above areas on a circular figure with concentric circles and plot an irregular pentagon. The smaller the area of plotted pentagon, the better the student is as leader in the area of key teaching skills. The journal helped students to be serious about reflections and gave a guideline to reflect on. An interesting idea of reflection through '3 Emojis' (Happy, Unhappy and Confused) printed at the end of lesson plan for observer feedback was introduced. Students had to write what they felt happy/unhappy/confused about anything in particular in their lesson. This connected the observer to the student's feelings and feedback became more meaningful. '2 Stars and 1 Wish' was introduced as a conclusion and closure to the feedback to make it more objective and positive. It is affirmative in approach and motivates students to take feedback in a healthy manner. Instead of saying you did not do this, '1 Wish' is very pleasant way of communicating what was lacking or what could have added value to their effort.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Examinations for the course consist of internal assessment as well as external assessment. External examination dates are declared by the University sometime during the academic year. However, internal assessment dates are put up in the academic calendar. Academic calendar is prepared at the beginning of the academic year where the dates for all forms of internal assessment (essays, class tests, content test, etc.) are finalized after giving due consideration to completion of all University mandated activities. Institutionally designed supporting practices like tutorials (which are provided for essays and external examinations) are also planned at the same time. During the year, students are graded on their ability levels and differentiated instruction is provided to students who fall on the higher end of the spectrum. Remedial programmes are

planned on the basis of felt needs of those who fall on the lower end of the spectrum. Content Enrichment through concept mapping is also planned to familiarize students with pedagogical content and its organization. Students present their concept maps in their pedagogy groups. This further enhances their understanding of content and prepares them for content test as well as lessons.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The student council is a very active body at KKCE which not only organizes events or activities in the college, but it also officially represents all the students in the institute and plays a pivotal role as an important linkage between the Principal, faculty and students. This year, elections for the new

batch were held on 6th December, 2018, wherein five members were elected democratically and one member was selected based on academic excellence. The student council team members have worked incessantly with commitment to successfully carry out several programs throughout the year. Some of them are - Gandhi Jayanti, Navratri, Diwali Celebrations, Talent show, Christmas Celebrations, Republic Day, Sports Day, and Cultural Day. Competitions such as Aarti Thali decoration, Mehendi competition, Hairstyle competition, Flower decoration, Rangoli, Slogan and Poster competition on the theme 'Eradicate Corruption' was organized by the Student council. The year 2018-2019 was full of triumph and great achievements in the inter-collegiate competitions department. Many student-teachers of KKCE participated in debate, story-telling, personality contest, essay writing, poetry recitation, collage making, best out of waste competitions, Green Run (A 7KM Marathon) and secured many laurels for the institution. The year ended with the Annual Prize Distribution and Farewell to the S.Y.B.Ed. students on 29th March, 2019. Ms. Seema Saini, the Principal of N.L. Dalmia College, Mira Road did the honours, as Chief Guest and gave away the prizes. • Representation of students on academic administrative bodies/committees of the institution: Students are invited as member of different academic and administrative bodies as per the composition mandated. Students are involved in CDC (College Development Committee), Anti-ragging Cell, Women's Cell and Grievance Cell of the college. The students on the bodies are the representatives of the entire student body and seen as a link between the institution and students for bringing student voices in decision making.

### CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

#### 6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Decentralization: 1. Immediacy in Decision making - All linkages especially global /international partnerships require support both financially and in terms of ideas. The Principal and the institution received full support from Management fully to establish linkages with Gordon Academic college of Education, Israel through participation in meetings, meeting the protocols where Management role was required. This led to quicker decisions on the

discussions towards developing a MOU. 2. Responsiveness - The institutional building face-lift and structural repairs was a challenging task for both Management and the members of the college. The planning and execution was made easy with Management opening lines of communication without complications and were responsive to our suggestions and lent a sympathetic ear to the practical issues. The flow of information to and fro helped to make the process of upgrading infrastructure easy. Participative role in capacity building: 1.

Exploring creative initiatives. The management was keen to explore opportunities for faculty to be trained in integrating technology tools from a good and reputed program. The TISS CLIX ICT in Education was exemplary and hence the management representatives involved themselves to attend the initial meeting with TISS, Mumbai. This encouraged the faculty and the Principal to enrol all faculty members, teachers and other educators from neighbouring institutions to join the 4 credit program to learn tools to integrate ICT in Education in a meaningful way. The institution collaborated with TISS to run this 4 month certificate course and organized the training at the college. 2. Stakeholder voice - The CDC of the institution has representatives from student body and office staff along with faculty members. The Management is very keen on stakeholders sharing ideas and hearing their voices on significant issues. They keenly hear presentations from faculty and non-teaching of any point raised and acknowledge the same.

6.1.2 – Does the institution have a Management Information System (MIS)?

Partial

## 6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Curriculum Development	A reflective handbook was designed collaboratively by faculty so that student teachers get into the practice of reflecting on relevant parameters that can prepare them to create 21st century learners. As a part of the internship documentation students had to additionally maintain this handbook and write their daily/weekly reflections. The handbook had two parts one the descriptor of the criteria which served as a guide for reflection and second part was actual space to reflect. It also serves as a form of self evaluation.
Teaching and Learning	The faculty signed up for four month training in ICT in Education in collaboration with TISS. It was in a

	<p>blended mode. This training helped faculty to develop lessons integrating ICT schools with school subjects..</p> <p>Faculty in turn trained student teachers for the same. These lessons were observed and feedback was provided by experts from TISS. The inputs given were on the following: authentic learning, 21st century skills, learning theories, and use of OER's, cyber bullying and lesson planning. The lesson plans and videos shot served as learning resources to train the student teachers in the meaningful use of ICT tools. Also Developed lesson demonstration videos of senior students in different school subjects to be used as a resource while training for school internship. Trained teachers and students for using updated LMS MOODLE platform. Workshop on MOOCS -SWAYAM</p>

## 7.2 – Best Practices

### 7.2.1 – Describe at least two institutional best practices

1. Social learning through community outreach 2. Integrating ICT in Education

1) Experiential learning helps to make learning meaningful. In the experiential learning approach the learning process involves the stage of concrete experience, the stage of observational reflections, and the abstract conceptualisations and active experimentation stages. At KKCE we engaged our students in the Social Learning through community outreach program. We aim to nurture professional teachers with the right attitudes and skills who will serve as catalyst to create a caring and just society. Our "Social Learning through community outreach program" helps us move towards our mission. Social Learning is an experiential learning approach wherein students apply what is learnt in real life situations in order to improve the conditions of the community. Through social learning the educational goals of the course and skills developed through the course are connected through meaningful social service. Simply put, Social learning is an extended form of experiential learning, which involves the intentional combination of experience and learning in a community set up to make meaningful interventions for a positive change in the society. In the process, learning, experience as well as the community is enriched. It is an excellent pedagogy for developing skills as well as knowledge and attitudes, encouraging deep understanding of learning complex concepts, applying theory to practice, and preparing students to be critically reflective professionals for informed and positive actions. To implement the Social learning through community outreach program we had to work with the community. We collaborated with Indian Development Foundation (IDF), a national NGO committed to health, education and development. All the students of the college were to conduct various activities with the NGO at different venues. 2) The institution collaborated with Tata Institute of Social sciences to register for the ICT in Education 4 credit course. It was an intensive training for four months in a blended mode. Faculty members both senior and junior took up the challenge of completing the course. The training involved learning about different ICT tools and its application in teaching and learning. Faculty learnt about different theories of learning, cyber security, and authentic learning and 21st century skills. They also planned and conducted lessons integrating ICT in school based teaching in the first phase. The lesson plans were provided with feedback. These lesson demonstrations were observed and mentored by experts from TISS and critical feedback was given to improve their efforts. The lessons given by faculty was video graphed. The second phase of the training involved faculty to transfer their learning to the student teachers and even these presentations were observed by experts from TISS. The whole practice gave teachers a practical experience of using ICT tools in their lessons and teaching the same to the student teachers. In addition to this effort the faculty also trained students to use the Swayam platform to register for some courses of their interest. Faculty too completed certain courses on this platform. Few Students successfully completed their course in the given time period. Some are in the process of completion. We use alumni to provide training in smart boards and all students are trained for the same. Moodle is used for managing learning and students are trained to use the system for notes, assignments, notifications etc. (Details on college website.)

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The institution is an established teacher education college in the western suburbs of Mumbai. The college is known for its hands on approach to training and application of theory to practice. Practice what you preach is the dictum we follow at KKCE. In doing so, we bridge the gap between theory and practice. The faculty focuses on authentic teaching practices, meaningful internship programme and creating a truly reflective teacher. The oneness of knowledge is effectively practiced by faculty members, which adds a lot of meaning to the different courses of the entire B. Ed. programme. Wherever there appears to be a gap (as per the feedback of some previous batches), the college makes an effort to bridge this gap and provide a holistic experience to its students. Extra inputs, in the form of guest lectures and workshops are our hallmark and we take extra effort in finding those that truly add value to our students. During internship, student-teachers experiment with different strategies of teaching putting into practice all that they learn in theory papers. The feedback provided to them builds up on the theories and principles already taught to them, thereby helping in better assimilation. As a result, by the end of the programme, they develop abilities to reflect meaningfully and objectively on different aspects of their own behaviour as a teacher. True to our vision of creating a just and humane society, we practice inclusion in all areas of the curriculum. To foster inclusive practices, we firmly hold on to our belief that language cannot be a hurdle in the making of an effective teacher and in assimilation of knowledge. The institution therefore goes the extra mile to accommodate student-teachers who experience any kind of discomfort in teaching in English. They are accommodated in vernacular medium schools and are also given the option to write their papers in language of their choice. We are also extra cautious in keeping all kinds of exclusion at bay - whether it is in terms of language, social class, economic class, or any other. Students experience our practices first hand and also study about them in theory papers. That completes the cycle for us, for there is no better way to bridge the gap between theory and practice than to lead by example. That is our distinctness.

### 8.Future Plans of Actions for Next Academic Year

? Encourage staff to further: a) reset the old Moodle set up to more updated version to motivate the use of the LMS among staff and students to enhance flexibility in learning b) to publish learning materials for student use. ? Organize training program for TET, orientation for acquiring teaching license for teaching in different countries. ? Continue with CET Orientation ? Establish linkages with well renowned schools to provide an exposure to their teaching-learning practices, activities and school culture. ? Continue with participative learning, collaborative learning, experiential learning and constructivist learning approaches. ? Enhance reflective practices among students. ? Fill up the vacant seats in the research cell. ? Motivate faculty to apply for PhD guidship ? Upgrade the library with print and online resources ? Tap the potential of the alumni for mentoring. ? Organise a value added program for content enrichment. ? Collaborate with reputed organisations to conduct certificate courses for professional and personal development as a value added service to the students and community. ? Promote more meaningful engagement of students on LMS (Moodle)

and tapping Digital Social Media for education in a greater way. ? Execute the MOU signed with Gordon Academic College of Education, Israel to enhance faculty exchange visits, exchange of ideas on academics and research. Hold meetings with faculty of both colleges for exchange of ideas.
