 Copy

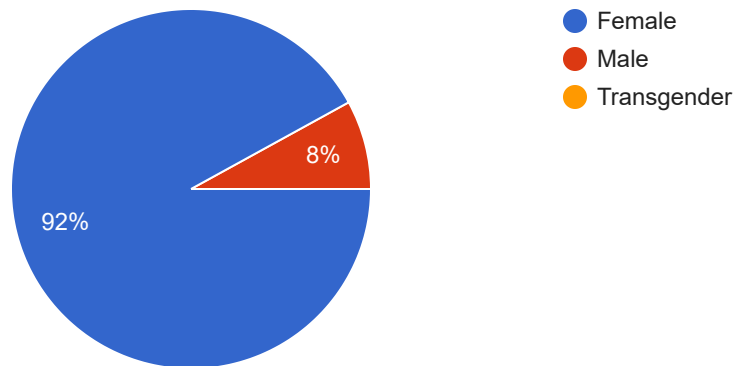

50 responses

- 0 – Not at all
- 1 – Very little
- 2 – Some what
- 3 – Moderate
- 4 – To a great extent

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

 Copy

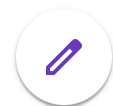

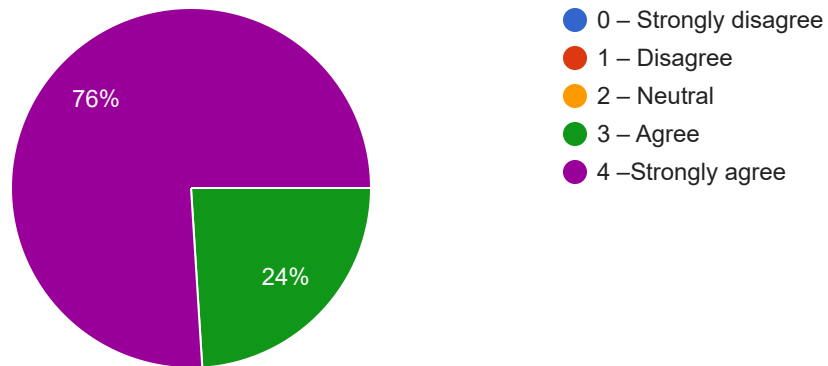

50 responses

20. The overall quality of teaching-learning process in your institute is very good.

 Copy

50 responses

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution

50 responses

-

Teachers can become more tech savvy and use more visual auditory examples such as videos.

Contemporary or recent data and stats can be shared with the students

Honestly, I think they are the BEST and they are doing great work..The involvement of each and every Teacher in shaping us is something I never forget.
Thank you!

None

Being the COVID batch we had left out many practical experiences hope it's done with the other batches as practical skills are very important.

1. All the sessions are interactive, can include Hands on activity which was there in one or two sessions

-

Teaching learning method of the institute are excellent.

Improvement is a process and it should continue to happen. But overall the institute focuses on the holistic development of the students. The non English medium students can be pushed a little more for their confidence building.

1. The institute gave many opportunities for learning.
2. The teachers helped us in many ways by giving day-to-day feedback.
3. Explored many new things and made us bold and perfect.

Na

1. More emphasize on ICT.
2. Action Research Project work can be started little early.

1) Give more time to complete work.

Internship should be given in ICSE or CBSE school as well.

Nothing

Everything is fine

Best institution for students

1. I wish if the working hours could be more friends and give equal time for Internship and Studies.
2. It was difficult to cope up with exam syllabus of studying because very minimal time was left out for studies.

A very good experience,

It was beyond amazing

I learned a lot of new things, and teachers helped and guided in every way they could.

They were very cooperative and understanding. I loved to attend lectures and learn from them

Give more examples in different subjects to understand the matter even better. Also keep more of interactive sessions. Overall the teaching learning process was very good.

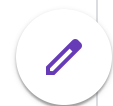

Nil..

NA

Overall everything was well planned and some teachers were very helpful.

The overall experience is very nice

Equity distribution of tasks and activities will enhance the overall process of student participation and development.

Giving students more choices for topics and methods of presentation of assignments will keep up the creativity and fun of learning.

Written reports on the assignments already done in other means (like video presentation or group presentation or drama etc) should not be mandatory.

EXCELLENT LEARNING EXPERIENCE

My college is very good in all aspects I don't find any place for suggestions for improvement. Thank you.

More activities based learnings.
More co-curricular activities to be planned.
Better schools for internships

Good

All good

Teacher should use group learning methods where the students will teach a particular topic to each other.

Reduce co-teaching lessons and include more individual lessons

More workshops, less lecture method and more interactive sessions.

1. Amazing teaching-learning process
2. Various opportunities provided to growth.
3. Total dedication of teacher's.

More interactive
Requires out of classroom teaching-learning
Good exposure with internships

It really help me to learn and grow myself mentally and professionally. Very useful strategies and techniques I learnt during the session, programs and experience

during internship. The strong and weak point was also discussed earlier. Best teaching points and experience were given

The college was great. Just a suggestion to increase the learner engagement through videos and games. It will allow us to have a fun experiment through game and find solutions to problems, work out on our best strategies, and build new confidence and skills

1) When possible, record your lessons

None.

1) Teachers understand students situation.

2) Guides in the best way

3) Listens our concerns

- Assignments topic should to be discussed much before date of submission
- Schools alloted during internship should be near from station (It can be any school but shld be near frm station so that travelling becomes easier)
- Some of the topics from syllabus shld be given for self study..

- To provide internship in more schools rather 2.
- To shorten the lesson plan
- To have mcq based or formative type evaluation rather than lentghy papers

Had best learning experience in this esteem institution. No suggestions.

Good institution for learning

The teaching learning experience has been very good it has given me insight into the real word setting and helped me in my teaching career in multiple ways.

The overall experience in the institute is good, it's a holistic approach towards teaching and learning
